As the time has come for preparing Estimate &c for renewal of Direct Labour system

he

he would be glad to know the views of the Council in reference to road maintenance but from the difficulty in finding Contractors he considered it would be better to have the work done by a properly arranged grouping of roads by Direct Labour rather than having to do the Direct labour in an irregular and unsatisfactory way when no tenders are received

The Co. Surveyor submitted proposals for the maintenance of roads in the District for 3 years from 31st March next. & recommended the adoption of a Direct Labour system which has been provisionally approved by the Co Council, the Estimate of which would be £96 less than cost of maintenance by contract system.

He further submitted

Est.

Estimate for road expenditure as follows:—

Maintenance of rds. in district	£3717.
Existing liabilities	347
Total	£4064

This amount is £394 in excess of the statutory limit, but not in excess of what the limit should have been.

"See resolutions"

Proposed by Mr. J. Keaveny
Seconded by Mr. J. Drury

That we approve of the Co. Surveyor's report & adopt Direct Labour system as recommended by him on the grounds that we get better roads at a reduced cost

Amendment

Proposed by Mr. Jas. Travers
Seconded by Mr. L. Roddy

That all roads presently maintained by Direct Labour be again maintained by Direct Labour and all expiring contracts of remaining roads be advertised for tenders

For the resolution 6 voted and 11 for amendment.

The amendment was declared carried by a majority of 5 votes — Clerk to advertise for tenders for 15 miles.

Proposed by Mr. J. Drury
Seconded by Mr. J. Keaveny

That we hereby adopt the sum of £3670 (being the maximum limit) for the maintenance of roads in the District for the service of the year ending March 1916.

"Passed unanimously"

Proposed by Mr. J. Drury
Seconded by Mr. J. Reilly

That as difficulty has lately been experienced in obtaining contractors for roads advertised for tenders we propose that in all cases where no tenders are received for maintenance of roads at next adjourned meeting those roads should be maintained by Direct Labour and should be grouped as Co. Surveyor advises. – the limit of expenditure for each group for 3 years not to exceed the aggregate of the separate amounts proposed for the maintenance of the several roads brought into it.

The acting Co Surveyor submitted Estimate of Road Expenditure for the service of the year ending March 1923 as follows:

Maintenance of Roads included in Direct Labour scheme £4.700
Special works 300
Total £5.000

He stated that this amount together with a substantial balance to credit at the close of the current year, owing to suspension of work during the present year, would suffice and that a number of quarry owners had refused permission to enter on their lands for road metal

See Resolution

Proposed by Mr J Ownes Junr
Seconded by " J Cullen

That we hereby approve of the Sum of £5000 to cover maintenance of Road Expenditure for the year ending 31st March 1923 and that the said Sum includes the maintenance of bye-roads in the District occasionally repaired by Council - as

the

Council is of opinion that the contract system even on bye-roads is a failure

Co Council to have amount above statutory limit approved. Mr McDermott be authorised to proceed against Quarry owners who refuse to give permission to enter on their lands

Passed unanimously - the latter part of resolution to be put on agenda for next meeting

Resolved -

That Councillors Cullen Glynn and Molloy be appointed to meet Mr McDermot acting Surveyor to consider Complaint made by Mr Duignan as to the flooding of his lands by road surface water at Derreenisky. Mr McDermot to fix an early date to arrange matter

The attention of Mr McDermot is also directed to the neglected surface flooding &c to the road leading to Assylin graveyard and to want of employ-by labourers at Keadue Passed unanimously who might be employed breaking road metal

Report of the County Surveyor
to the Boyle No. 12 Rural District
Council, for the quarter ended
31 st March 1925.----------

Gentlemen,

I return herewith Form 22 . The one instalment deferred from last meeting must be again deferred.

At the time of the recent inspection the condition of the surfaces of the roads was as follows:- 2 were good, 112 fair, and 20 middling .

The Direct Labour Gangs are now getting into the quarries preparing rock for the stone crushers. The roads , if the present spell of good weather continues will need very little attention with the exception of keeping loose stones raked off and attention paid to pot holes as they appear.

I have now started the work of steam rolling the streets of Boyle town and I hope to have the work finished in about three months time except unforseen delays occur.

There are two proposals before you to-day for final consideration . One the concrete footpath in Boyle town and the other for re-building the 3 remaining broken down bridges

The proposals were provisionally approved at the quarterly meeting in January, and I now recommend their final adoption.

The expenditure and amounts of material supplied to the various sections and lengths of roads on the Direct Labour Scheme, in the District for the financial year ended 31 st March together with the estimated amounts are as follows:-

County Surveyor,
Roscommon.

As you will see by this table I have kept within the limit of expen-diture by £ 312 and that 8602 tons of material have been supplied and used upon the roads -equivalent to 88 % of the estimated quantity required.

Taking into account the extraordinary bad year experienced and the ever increasing motor traffic the roads are in a very fair condition considering the amount of money at my disposal.

Your obedient servant,

Michael Verney.

Report of the County Surveyor
to the Boyle No. 1. Rural District
Council, for the Quarter ended
31 st December 1924. .....

Gentlemen,

I return herewith Form 22 into which I have entered my recommendations and which shows that the one instalment deferred from last meeting must be again deferred. The Contractor for this work is prevented from going on with the work owing to the severe weather.

At the time of the recent inspection the condition of the surfaces of the roads was as follows:- 3 were good, 111 were fair, 18 middling and 2 bad.

The past year and particularly the past quarter has been very trying on the road surfaces . Some of the Trunk and Main Roads which I had suceeded in getting into good shape during the Summer , with gravel, have been badly damaged . In places the whole surfaces have been washed away by floods and are costing a lot to keep.

No provision was made in last year's Estimate for such unforseen contingencies and consequently in some sections the expenditure has been very high with the result that I have had to close down work in them.

However taking the whole Rural District the expenditure has been reasonable. The amount allowed was £ 6,050 : : and the amount spent is £ 5,027 : : You will see

from this that there is yet about one sixth to be spent and we have not much over one sixth of the year to go. I have now gone into the matter as set out in par. 3 of the general conditions governing Direct Labour Scheme and I have reapportioned the estimated amounts for the sections in the whole Rural District to enable me to carry on work all over the Rural District until the end of the financial year

It is necessary that your approval be given to same before I can resume work and I ask you to sanction the readjustment of amounts to read as follows:-

Section Number.	Group or Route	Amount allowed	Amount Spent to 20/12/'24	Amount required to carry on to 31/3/'25.	Re-apportionment to Sections
		£	£	£	£
1	Local	1130	761	190	951
1	T. 34	270	178	50	228
2	Local	680	481	110	591
3	Local	740	799	78	877
3	T. 34	100	149	40	189
3	T. 3	220	70	30	100
4	Local	400	365	60	425
4	T. 34	250	205	40	245
5	Local	500	422	85	507
5	T. 3	120	77	25	102
6	Local	410	494	90	584
6	T. 3	120	36	15	51
7	Local	465	398	70	468
7	T 34	105	131	35	166
8	Local	370	351	70	421
8	T. 34	170	110	35	145
	£.	6050	5027	1023	6050

This readjustment means no additional amount on the estimate of last year. It only means transferring money from sections which are not badly in need of it to others which are.

The work of steam rolling the streets of the town has been held up owing to the Government not sanctioning the loan so far. I will read for you the latest communication I have had about this matter, so you will appreciate that as far as I am concerned the delay is unavoidable.

A good deal of grants for the improvement of trunk roads were given last year and I anticipate that some more may be forthcoming this year. The Government, however, expect that Local Authorities should make an effort to do something themselves in the way of improvement by steam rolling. Consequently I am to-day putting before you a proposal to raise a loan of £2500. to be utilised for the improvement by steam rolling of Trunk and Main roads in the district, this amount to be provisional on the Government granting at least an equal amount. I would also recommend that it be repaid over as long a period as possible and that it be charged half to the County at large and half to the Rural District.

I notice that you have to-day 20 Councillors' proposals before you for new and special works. I have gone very carefully into those proposals and in going through the list I will point out those which I recommend should be done and those which you should reject. This is a very hard year on ratepayers and in view of the present outcry against high rates and the ratepayers inability to pay I would recommend that you should keep the estimate as low as possible. The maintenance of the public roads is a permanent responsibility which you cannot shirk and I have cut down my estimate for those to the very lowest possible and I could not possibly manage with anything less.

County Surveyor,
Roscommon.

To..... Boyle No. 1. R. D. C. ....., Date. 9th Jany. 1925.

Sheet No. 4.

However you have room for economy in the special works and I would recommend that you take on no new works except what are absolutely essential for this year at any rate.

Amongst the proposals is one No. 28 for the repair of a bye-road from Cornagee three roads to Cartron three roads. Very recently people living in this district illegally took about 30 tons of stone from off a public road and put them on this road. I have got the names of those people and I am at present investigating this matter with a view to taking the necessary action. I am also strongly opposed to your passing this proposal as I think that it is necessary to teach those people a lesson who think they can with impunity steal metal and appropriate it to their own use.

I am putting a proposal before you to-day for £365. for the repair of the remaining broken bridges in your district. Those were overlooked last year and no provision has been made for them, and I ask you to approve of this proposal to-day. The Government will, I expect, refund the expenditure on those bridges as well as those which have already been repaired.

My estimate for the coming financial year will therefore be as follows:-

(over)

County Surveyor,
Roscommon.

To Boyle No. 1 R. D. C, Date 9th Jany. 1937.

Sheet No. 5.

E S T I M A T E.

Maintenance of Trunk Roads	£1060.	
do. Main Roads	830.	
do. Local Roads	3320.	
Total for Direct Labour Maintenance		£5210.

Special Works.

Existing Liabilities	125.	
My estimate for proposals before you to-day	~~609.~~ 635-8 HN	
Estimate for re-building of 3 damaged Bridges	365.	
Total for Special Works		£~~1099~~ 1048 HN
Gross Total		£~~6309.~~ 6238 HN

In looking over those figures and comparing them with last year's estimate you will notice that there is a reduction on the whole estimate of £507. This on the face of it looks small but you will find that last year you had no Councillors proposals, consequently the total for special works last year was only £766. whereas this year there is a total of £1099. for Special Works. Another thing you will notice is that I have reduced my estimate for Direct Labour by £840. or about 20 per cent. I think that considering the daily increase in traffic and the extremely wet year just passed which was extremely trying on road surfaces, that this is a very big reduction, and I trust therefore, Gentlemen that

OUNTY SURVEYOR,

my recommendations will meet with your approval and that you will make application to the Ministry of Local Government to extend the statutory limit to cover this amount.

I am, Gentlemen,

Your obedient servant,
