Mr. Hanly raised the question of the Collector's postage, which the Collector had neglected to claim. After discussion, it was decided to defer the matter, the Board being of opinion that the Collector should be re-imbursed.

Mr. Joseph Maguire, Fairbank, came before the meeting with reference to the amount of the Decree and Dismiss against him, and asked for the remission of some of the amount. The Board decided that, as a public body, they could not do anything in the matter.

It was ordered that a list of the decrees at suit of the Board with the position in respect of each, be ready for next meeting on 15th August.

The Secretary drafted the following letter to be sent by Mr. Gaynor, Solicitor, to those tenants on the Goff Estate who are in arrear—

Shorestown Drainage Board v You.

With reference to the application of the Collector, Mr. Anthony Conry, to you for £ being the amount of drainage maintenance rates due by you for the years 1916-1930 as a Proprietor of portion of the lands of under the several Awards of the Commissioners of Public Works. I am directed by the Board to require payment of this amount within seven days from this date. Failing such payment the Board will proceed as advised by Equity Civil Bill, or otherwise, to recover this amount. This procedure will be expensive, but the Board, as a public body, must discharge their duty. I would therefore suggest that you consult your Solicitor on the matter without further delay, and avoid the heavy costs which a Decree against you will carry.

This letter to be addressed to all the Proprietors concerned, but the eight largest debtors are to be sued.

I have examined the accounts of the Shoreston Drainage Board, signed by me, for the period from 1st March 1930 to 28th February 1931, and I find same correct in my opinion.

I have compared all payments with Vouchers and Bank Books and find same to agree.

I have examined the Collector's Collection Book. The arrears as shown in the accounts correspond with his book.

I have examined the accounts of the Stroudstown Drainage Board, signed by me, for the period from 1st March 1932, to 28th February 1933, and I find same correct in my opinion.

I have compared all payments with Vouchers and Bank Books and find same to agree.

I have examined the Collector's Collection book. The arrears as shown in the accounts correspond with his books.

Dear Sir

I beg to bring before your notice that in the harvest of 1931. 2 acres of meadow was flooded, and I had to buy hay that year. I put in no claim for compensation to Drainage Board, although I hear that neighbours of mine were compensated for loss of crop in next field to mine. I think if there is any compensation for damage I am entitled to some, as I pay drainage rates to Athgoe County (£1. 3. 2).

I was at a loss of £9 that year. and I would like to know if I am entitled to compensation.

Minutes of previous meeting read and signed.

Mr. Walpole went through the list of contracts and the Superintendents reports on same. A discussion arose as to whether payment should be made for work as per Patrick Ratican's contract - Mr. Dolan considering that payment should not be made, as he alleged that the Superintendent did not properly inspect the work. but it was decided to accept the Superintendents report, and pay the Contractor. All the Contractors were ordered to be paid the second moiety of their contracts for 1934/5 on the Superintendents report.

The meeting went through the list of arrears attached to the ~~Auditors~~ Balance Sheet, and directed that special efforts should be made to collect same.

The Secretary read the correspondence he has had with Irish Land Commission re arrears on Digby and other Estates. The attitude of the Land Commission was considered most unsatisfactory.

The audited accounts for 1934/5 were then accepted.

On the motion of Mr. Luke Barlow, seconded by Mr. Peter Murray, the rate for 1935/6 was fixed at £600.

Mr. Burke proposed and Mr. T. E. King seconded that Mr. Anthony Bourn be appointed Collector and Superintendent for ensuing year at the same remuneration as he has been receiving and he was appointed unanimously.

Mr. T. E. King proposed and Mr. Murray seconded. and it was adopted that during the ensuing year the Superintendent be responsible for the appointment of Sangers or foremen.

The foremen or sangers are to be paid at the rate of five shillings per day and are to work. and labourers are to be paid at the rate of four shillings per day.

It was ordered that the bridge erected by Michael Gibbons at Luam be removed.

The next meeting is to be held early in August.

The Chairman raised the question of the state of the Tubberpatrick river. and it was mentioned that possibly the County Council might undertake the work as a special work without interfering with the ordinary drainage work of the district. The Secretary promised to see Mr. Kearney and Mr. Curley on the matter.

The Secretary detailed the position as regards the certification by the Record Office of the High Courts of the original Award of the Commissioners of Public Works. He explained that early in the month he had called at the office of Public Works, and on informing them that the Record Office denied having the document, they turned up the file, which showed that the same Office had admitted having the document when a comparison of records (with the object of reinstating missing documents) was made after the destruction of the Four Courts. It was decided that all possible efforts should be made to set the matter in order, and the Chairman and Secretary decided to go to Dublin and look up the matter again if the position was not soon cleared up.

A discussion took place with reference to the arrears of rates on the Digby and Sampey Estates, and it was decided that pressure be kept up on both the Land Commission and Mr. Sampey until payment is received, and that whichever is liable be sued. It was decided to ask Mr. Fogarty B.L. as to the powers of the Land Commission to transfer liability to Mr Sampey.

Minutes of previous meeting read and signed

The meeting went into the question of arrears of rates, a list of the principal defaulters being considered, and instructions were given for proceedings in several cases, while others were deferred to see if they would make a payment on account, according to promise.

Mr. Connellan, Solicitor to Board, was sent for to attend meeting to report as to what he had done with regard to the issuing of Civil Bills for arrears of rates, instructions for which the Secretary reported having issued to him. The Secretary was directed to write Mr. Connellan notifying him that the Board require a report from him on these cases, and desire his attendance at next meeting, so that he may explain the position with regard to the Civil Bills.

The Secretary explained the reason why the audit of last year's accounts had not been carried out, owing to great pressure of work preventing his attending on Mr. Frank Maguire at Roscommon for part of the time, and Mr. Maguire being busily

engaged at other times. He promised to endeavour to have audit completed by next meeting.

The claim of Luke Duffy of Clooncagh against the Board for alleged negligence in the cleaning of rivers, causing him loss of his turf crop, was considered, and the Superintendent having given his observations, the Secretary was instructed to notify Mr. Duffy's Solicitor that the Board deny negligence and refuse to meet the claim.

The question of flooding at Farm and Townlands adjoining, by reason of obstruction at mouth of Tunnel in Shrewsbury Demesne, was gone into, and finally the Secretary was directed to search the minute books of the Board for any minutes of decisions or discussions on this matter.

A communication from Drainage Commission asking for certain information and suggestions, as well as for a synopsis of any Evidence which the Board may wish to offer before the Sittings of the Commission, was considered, and after discussion, was referred to the Chairman and the Secretary to deal with.

The Secretary reported having applied to office of Public Works for apportionments of Lambeg and Lisnagade (Naugle), Farm (Dolan), Leavy (Freanacreevy) & Grady (Dooherty etc.).

I have examined the accounts of the Shrrestown Drainage Board, signed by me, for the period from 1st March 1937 to 28th February 1938, and I find same correct, in my opinion.

I have compared all payments with Vouchers and Bank Books, and find same to agree.

I have examined the Collector's Collection Books and the list of arrears shown after previous audit, and the arrears shown in accounts correspond.

Minutes of previous meeting read and signed

The Chairman made a detailed statement with reference to his interview with the Board's Solicitor, Mr. Connellan, in the course of which he mentioned that Mr. Connellan informed him that undefended cases must go before the Circuit Judge, as the County Registrar will not mark judgment on such by default. As regards the defended cases, these have not been listed for next sittings, and cannot be reached until October.

The instructions were sent to him prior to November last, and he can give no explanation for delay. Should he again become dilatory, the cases can be handled by another Solicitor.

The Board instructed that the Civil Bills against Mrs. O'Connor and Mr. Lampey be issued immediately.

The Land Commission also will have to be proceeded against, and a statement of their liability is to be prepared.

A deputation of direct labour workers came before the meeting to ask for increased

wages and shorter hours of work. The Board agreed to increase the wages to 4/6 per day, but would not agree to the demand for shorter hours.

The Chairman ~~and Secretary~~ outlined his proposed suggestions to the Drainage Commission and it was agreed that the Chairman and Secretary are to appear to represent the Board before the Commission, if requested.

It was proposed by Mr. T. E. King, seconded by Mr. Hanly, and resolved — That the rate for 1939/40 be £600.

Next meeting to be held on first Friday of July.

Minutes of previous meeting read and signed.

The accounts for financial year ended 28th February 1938, as audited by Mr. Francis J. Maguire, were received and passed.

The position with regard to arrears of rates due by Land Commission was directed to be cleared up.

The statement drafted by Chairman and signed by him and the Secretary which had been forwarded to the Drainage Commission, was approved.

The position regarding the French or deep sinking near Tubberfahee was considered, and it was decided that for the present at least, the Board are not in a position to do anything. The Secretary was asked to endeavour to ascertain when anything may be happening about it, such as communications to any of the Ministers, etc.

The claim of Wm Farrahan of Mayfield for payment of second moiety of his contract for past year was considered and the Secretary was instructed to offer his Solicitor half the amount, without prejudice

The claim of Roderick Wilmott was also before the meeting and it was decided to settle same.

It was directed that £1 be paid to Barthy Brennan for keeping watercourse clear, last year.

The Secretary reported that he had received a visit from the Arboral Health Insurance Inspector and that the workmen employed by the Board on direct labour must have their Health Insurance Cards stamped.

The Secretary was instructed to communicate with Major Hales Fakenham Mahon or the Agent, Captain Boylan, regarding the obstruction of tunnel in demesne, and the flooding caused thereby.

The next meeting to be held in a month.

Minutes of previous meeting read and signed.

It was decided to allow the Board's Solicitor to go on with cases at present in his hands until November Court, and then consider the position.

The Secretary was instructed to send the Land Commission a full statement of what he considers they owe, showing first to the Chairman, and require a reply within a fortnight.

The reply from the agent to the Taken Law Mahon Estate with reference to the grating at Tunnel in Shorestown Demesne was considered satisfactory.

It was decided to pay half direct labour wages so soon as this can be done.

A vote of sympathy with the family of the late Mr. Peter Murray, a valued member of the Board, on his untimely death, was passed in silence and the Secretary was directed to convey the resolution.

Minutes of previous meeting read and signed.

The Secretary was instructed to get the Board's Solicitor to write the Land Commission requiring payment of all amounts already claimed.

It was ordered that the Solicitor be asked to furnish full particulars as to the position with reference to the decrees obtained by the Board in January last against rate defaulters.

The Secretary reported on the position with reference to other Civil Bills issued, so far as he was in a position to do so, and particularly as to the case of the Board against Mr. Lawless having to be again adjourned, owing to the upsetting of the Circuit Court list by a Criminal case having to be dealt with unexpectedly.

The Secretary was directed to make out two lists of defaulters in payment of rates

for next meeting, one list to contain the names of those against whom proceedings should first be taken.

The chairman raised the question of the audit of past two years' accounts and the Secretary explained his position owing to pressure of work generally, and that it is only during the next two or three months, especially July and August, that his work gets lighter, and that he would have the accounts audited during this time.

A letter was read from Mr. Flynn, Solicitor, on behalf of Messrs. Daly and McDermott, Cornashinagh, re the bad condition of Doocherty Bridge, and it was decided to see if the bridge could economically be reconstructed of concrete. The Secretary was instructed to see an Engineer on the matter. He mentioned that he can supply old chassis of cars for reinforcing the concrete.

The usual notice was read from Office of Public Works, re the triennial appointment of trustees of the Board, due this year, and the Secretary was directed to deal with it.

A deputation attended re the making of an alternative drain or river at Attballa and it was decided that that being maintained is the correct one.

With reference to the slips in the Tubberpatrick River, it was arranged that the Chairman and Mr. J. E. King,

with the Superintendent, will examine the place.

Minutes of previous meetng read and Signed.

The Secretary read copies of his letters of 7th inst. to the Board's Solicitor, asking for particulars regarding the Decrees obtained by the Board in January last, as to the amounts paid on account, the dates on which Decrees were lodged for execution etc. also as to fees for applications to other defaulters. He stated that he had not received any reply.

A long discussion took place on the matter, and after suggestions and propositions had been made, the meeting finally adopted the following resolution, Mr. T. E. King dissenting - Proposed by Mr. Walpole, seconded by Mr. R. Byrne - "That being dissatisfied with the manner in which our Solicitor fails to deal with our business, and especially neglects to reply to communications from the Board, we consider that our work could be more advantageously carried out by a local Solicitor. Before taking further action, we desire to have the remarks of our Solicitor on the questions, and we require a reply in time for our next meeting on 5th July."

The list of defaulters, prepared by the Secretary, which he stated was not complete, was gone over, and rulings made that in

I have examined the accounts of the Shrokeshown Drainage Board, signed by me, for the period from 1st March 1938 to 28th February, 1941, and I find same correct, in my opinion.

I have compared all payments with Vouchers and Bank Books, and find same to agree.

I have examined the Collector's Collection Book, and the list of arrears shown after previous audit, and the arrears shown in accounts correspond.

Minutes of previous meeting read and signed.

Arising out of the minutes, the Superintendent reported that he had got the slip in the Tubberpatrick river properly cleared up soon afterwards.

He also reported the result of the actions against four proprietors in townland of Carrowndangan for arrears of rates and their counterclaims for damages for negligence, the net result being that the Board is called on to pay substantial sums for damages & costs in excess of the amounts recovered by them.

A letter was received from Messrs. Stanton & Son. Solrs. Castlerea with reference to decree obtained by the Board against Thomas Shannon for rates, and costs, pointing out that Mr. & Mrs. Hoban are the owners of the lands since 1936. and claiming on their behalf damages for flooding of the lands, but offering to forgo the claim if the Board agree to forgo the amount of their decree - £9.6.2. The Board decided it would not be expedient to defend the claim in the circumstances and therefore agreed to the proposal in Messrs. Stanton's letter.

Minutes of previous meeting read and signed.

The Secretary's letter of 10th ult. to the Board of Works was read and approved.

The Superintendent reported as regards the silting up of sand at the opening of Shead Lough, that it would not be easy to get a separate contractor to do this work, so that he considers it would be better to insist on the existing contractor doing the works, and if he fails to do it, let men be put on it at his expense. This was approved.

It was ordered that the contractor, Patrick Lally, be paid for last year.

On the proposition of the Chairman, seconded by Mr. Mullooly, the rate for 1942/3 was made at £600.
