

## Roscommon County Council Business Support Unit 'supporting micro to macro business'

Roscommon County Council's Business Support Unit provides support to existing and prospective businesses. The unit:

- Act as a single point of contact for businesses in County Roscommon accessing County Council services or departments, including
  - Facilitating business during the planning process by offering relevant advice and assistance.
  - Providing information on waste management, water connections, water treatment etc.
- Offer a range of information on enterprise centres, broadband, training etc. to facilitate and encourage business development in County Roscommon.
- Liaise between business customers and the various departments of Roscommon County Council including fast-tracking of service delivery to ensure a quick, co-ordinated response to business customers.
- Act as a referral service for enterprise support agencies operating in County Roscommon.
- Provide information on public bodies, agencies and private institutions located in County Roscommon and the western region that may offer business support, advice and/or financial assistance to businesses.

Contact with Roscommon County Council is a fundamental part of establishing or expanding a business in County Roscommon. The Roscommon County Council Business Support Unit aims to make it as easy as possible for businesses to access and use the relevant sections of Roscommon County Council in order to encourage business in the county. It also pulls together other information about the county that is relevant for people locating here.
