

ROSCOMMON TOWN “PUTTING THE SPOKES BACK IN THE WHEEL”

Roscommon County Council intend to continue to improve the public realm and streets in Roscommon Town Centre, with enhancements to N61/Circular Road, Henry Street, Church Street, and Goff Street, Athlone Road and Brogan’s Lane, in line with the implemented Market Place. Improved streets, integrated parking, better crossing facilities, wider footpaths and new accessible green space will all form a part of the public realm enhancement project.

Spoke 1: N61/Circular Road, Goff Street, Athlone Road and Brogan's Lane

Key Design Objectives

- Create connections between key destinations such as the Roscommon Arts Centre and Centrepont Retail Park with the historic town centre core
- Create a new linear park to improve the pedestrian environment and enhance climate resilience
- Open up development opportunities within back land areas
- To create an attractive first impression to Roscommon Town and a reason for people to stop and explore the town.
- Enhance the public realm generally
- Improving car parking
- Creating a greener healthy town where walking and cycling are encouraged

Spoke 2: Henry Street and Church Street

Key Design Objectives

- Creating a high quality safe pedestrian friendly town centre that isn't dominated by vehicles
- Improving parking and pedestrian access for residents
- Improving pedestrian safety and links to the town centre via Henry Street and Church Street
- Improved public realm and links to the town centre from the council offices and Roscommon Leisure Centre.

View of the proposed linear park looking north-east along N61/Circular Road

The design is based on the following aspirations:

- 01** Unlock the potential of key underused sites in the town centre
- 02** Create a town centre that is attractive to both visitors and residents
- 03** Create a 5/10 minute walking and cycling town
- 04** Encourage people to live in the town centre
- 05** Make the most of the towns heritage assets
