Assessment:

The proposed development of the change of use from a garage to a living room to the side of a dwelling house which, it is stated as having floor space of 31.9m².

From reviewing the drawings provided the existing extension has an area of 7.6m².

With regard to the compliance with the conditions and limitations of Class 1 of Part 1 of Schedule 2 (Exempted development - General) the following assessment sets out how these apply to the current proposal:

1. House has a previous extension to the rear therefore N/A.
2. a. House has previous extension of 7.6m². Proposed work is stated as 31.9m², total area of all extensions to the dwelling is 39.5m².
b. House is detached, therefore N/A.
c. Proposed area is only on ground floor level.
3. Proposed area is only on ground floor level.
4. a. Rear wall does not exceed this height.
b. Rear wall does not exceed this height.
c. Roof height of extension is not higher than the existing house.
5. Extension does not reduce the open space to less than 25m²
6. a. Window is greater than 1m from the boundary it faces.
b. Proposed work is only on ground floor level.
c. Proposed work is only on ground floor level.
7. Existing house is a bungalow type house therefore can not be used as such.

Having reviewed the existing works in the context of the Conditions and Limitations associated with Class 1 of Part 1 of Schedule 2 of the Planning and Development Regulations, 2001, as amended, the change of use from a garage to a living room as described in this case is considered an exempted development.

The proposal includes the refurbishment of the derelict house. These works have considered in the context of Section 4 (1)(h) of the Act, consisting of the carrying out of works for the maintenance, improvement or other alteration of any structure, being works which affect only the interior of the structure or which do not materially affect the external appearance of the structure so as to render the appearance inconsistent with the character of the structure or of neighbouring structures. The proposed works are deemed an exempt development.

With Regard to Article 9 (1)(a) of the Planning and Development Regulations, it is reasonable to conclude that on the basis of the information available, it is considered that the proposed development individually and in combination with other plans or projects would not be likely to have a significant effect on any European site and that the need for EIA or AA does not apply with respect to the current referral case.

I am satisfied that an Environmental Impact Assessment Report or Natura Impact Statement are not required. It should be noted that any development for which Environmental Impact Assessment or Appropriate Assessment is required shall not be exempted development unless specifically exempted in regulations where there is provision in other legislation for the carrying out of EIA or AA. In addition, the restrictions on

exemption Art 9 (1)(a) (viiB) exclude development which would otherwise be exempted development under these regulations where a NIS is required.

Recommendation

WHEREAS a question has arisen as to whether refurbish derelict house and change of use from a garage to a living room in Buckill, Frenchpark, Co. Roscommon is or is not development and is or is not exempted development.

I have considered this question, and I have had regard particularly to –

- (a) Sections 2, 3, 4 and 5 of the Planning and Development Act, 2000, as amended
- (b) Articles 6 and 9 of the Planning and Development Regulations, 2001, as amended
- (c) Class 1 of Part 1 of Schedule 2 of the Planning and Development Regulations, 2001, as amended
- (d) The record forwarded to Roscommon County Council in accordance with subsection (6)(c) of Section 5 of the Planning and Development Act, 2000, as amended
- (e) The planning history of the site

AND WHEREAS I have concluded that

- a) The works are development.
- b) The proposed change of use from a garage to a living room to the side of a dwelling house as described in this case is an exempted development.
- c) The proposed refurbishment of the derelict house as above fall within the provisions of Section 4(1)(h) of the Planning & Development Act 2000 as amended, which provides as follows:

development consisting of the carrying out of works for the maintenance, improvement or other alteration of any structure, being works which affect only the interior of the structure or which do not materially affect the external appearance of the structure so as to render the appearance inconsistent with the character of the structure or of neighbouring structures;

- d) The proposed development individually and in combination with other plans or projects would not be likely to have a significant effect on any European site and that the requirement for AA or EIAR does not apply with respect to the current case.

and I recommend that a declaration to that effect should be issued to the applicant.
