Relevant statutory provisions

Planning and Development Acts 2000 (as amended)

Section 2. -(1)

“works” includes any act or operation of construction, excavation, demolition, extension, alteration, repair or renewal and, in relation to a protected structure or proposed protected

structure, includes any act or operation involving the application or removal of plaster, paint, wallpaper, tiles or other material to or from the surfaces of the interior or exterior of a structure.

Section 3. –(1)

In this Act, “development” means, except where the context otherwise requires, the carrying out of any works on, in, over or under land or the making of any material change in the use of any structures or other land.

Section 4(1) of the Act defines certain types of development as being ‘exempted development’. Of potential relevance is section 4(1)(h) which provides as follows:

development consisting of the carrying out of works for the maintenance, improvement or other alteration of any structure, being works which affect only the interior of the structure or which do not materially affect the external appearance of the structure so as to render the appearance inconsistent with the character of the structure or of neighbouring structures;

Section 4 (2) of the Planning and Development Act provides that the Minister, by regulations, provide for any class of development to be exempted development. The principal regulations made under this provision are the Planning and Development Regulations.

Planning and Development Regulations, 2001 as amended

Article 6 (1)

Subject to article 9, development of a class specified in column 1 of Part 3 of Schedule 2 shall be exempted development for the purposes of the Act, provided that such development complies with the conditions and limitations specified in column 2 of the said Part 3 opposite the mention of that class in the said column 1.

Article 9 (1) applies;

Development to which article 6 relates shall not be exempted development for the purposes of the Act.

viB) comprise development in relation to which a planning authority or an Bord Pleanála is the competent authority in relation to appropriate assessment and the development would require an appropriate assessment because it would be likely to have a significant effect on the integrity of a European site.

Environmental Considerations

With regard to Article 9 (1)(a) of the Planning and Development Regulations 2001 (as amended), it is reasonable to conclude, on the basis of the information available, that the proposed development individually and in combination with other plans or projects would not be likely to have a significant effect on any European site and that the need for AA does not apply with respect to the current case.

I am satisfied that an Environmental Impact Statement or Appropriate Assessment are not required. It should be noted that any development for which Environmental Impact Assessment or Appropriate Assessment is required shall not be exempted development unless specifically exempted in regulations where there is provision in other legislation for the carrying out of EIA or AA. In addition, the restrictions on exemption Article 9 (1)(a) (viiB) exclude development which would otherwise be exempted development under these regulations where an AA is required.

Assessment

In accordance with the Planning and Development Act, 2000, as amended Section 3. (1) development is defined as the following: "In this Act, "development" means, except where the context otherwise requires, the carrying out of any works on, in, over or under land or the making of any material change

in the use of any structures or other land". The proposed development is considered to be the carrying out of works. Works are defined in the Act as; "works" includes any act or operation of construction, excavation, demolition, extension, alteration, repair or renewal and, in relation to a protected structure....". It is considered that said works constitute development, as defined in Section 3 of the said Act.

Extent of Works

External Windows and Doors

- Existing windows and doors to be replaced with new white Upvc double glazed windows and doors (it is not specified within existing opes and this will be referenced in declaration).

Internal Joinery

- New solid wood doors to be fitted throughout the dwelling.
- Architrave to be fixed to each door set to match doors.
- Skirting to be fixed along every floor and wall junction except where walls are tiled.

Plumbing

- Heating to be provided by using combined system of Oil fired burner and solid fuel cooker.
- Individual rooms heated using aluminium radiators.
- Sanitary Ware to be agreed by the client prior to installation and connected to existing septic tank.

Electrical

- All electrical work certified and designed in accordance with the National rules for electrical installations.
- Numbers, locations and types of electrical fitting to be agreed with the client prior to work commencing.

External Works

- Existing roof covering to be removed and replaced with black fibre cement slates to match existing roof.
- New Upvc guttering, fascia and soffit to be fixed to all roofs.

These works have been considered in the context of Section 4 (1)(h) of the Act, consisting of the carrying out of works for the maintenance, improvement or other alteration of any structure, being works which affect only the interior of the structure or which do not materially affect the external appearance of the structure so as to render the appearance inconsistent with the character of the structure or of neighbouring structures. The stated proposed works are deemed an exempt development.

Extension

1. (a) House has no previous extension; proposed extension is 33.4 m².
(b) Proposed extension is only on ground floor level.
(c) Proposed extension is only on ground floor level.
2. House has no previous extension; therefore N/A.
3. Proposed extension is only on ground floor level.

4. (a) Rear wall does not exceed this height.
- (b) Rear wall does not exceed this height.
- (c) Roof height of extension is not higher than the existing house.
5. Extension does not reduce the open space to less than 25m².
6. (a) Windows are greater than 1m from the boundary it faces.
- (b) Proposed extension is only on ground floor level.
- (c) Proposed extension is only on ground floor level.
7. The extension roof is flat but it appears it will not be used as a balcony or roof garden.

After review of the application and following a site inspection, the subject site complies with the conditions and limitations attached to Class 1 of Part 1 Article 6 Schedule 2 of the Planning and Development Regulations, 2001 (as amended).

Recommendation

WHEREAS a question has arisen as to whether a proposed development; for the renovation of an existing dwelling & the construction of an extension to the rear and all associated works at Tully, Castlerea, County Roscommon, F45 YT53, is or is not development and is or is not exempted development, I have considered this question, and I have had regard particularly to –

- (b) Articles 6 and 9 of the Planning and Development Regulations, 2001, as amended.

- (d) The record forwarded to Roscommon County Council in accordance with subsection (6)(c) of Section 5 of the Planning and Development Acts 2000 as amended.
- (e) The planning history of the site.

AND WHEREAS I have concluded that

- The proposed development individually and in combination with other plans or projects would not be likely to have a significant effect on any European site and that the requirement for AA or EIAR does not apply with respect to the current case.

AND WHEREAS I have concluded that the said development for the renovation of an existing dwelling (with referenced replacement of existing windows and doors within existing opes) & the construction of an extension to the rear and all associated works at Tully, Castlerea, County Roscommon, F45 YT53, is an exempted development. I recommend that a declaration to that effect should be issued to the applicant.
